

# Foreign Language Terms

Aids to translating foreign immunization records.

**Table 1: Disease, Vaccine, and Related Terms.** This table lists terms for vaccine-preventable diseases, vaccines, and other items that might be found on an immunization record, by language.

**Table 2: Trade Names.** This table lists the names of specific vaccines that are used, or have been used, internationally, along with the manufacturer and country or region, when known.

These tables have been adapted from lists developed by the Minnesota Department of Health Immunization Program (now maintained by the Immunization Action Coalition) and the Washington State Department of Health.
